*SCP Foundation - Foundation Handbook* - Peter Defort, 2019-08-27 Mankind in its present state has been around for a quarter of a million years, yet only the last 4,000 have been of any significance. So, what did we do for nearly 250,000 years? We huddled in caves and around small fires, fearful of the things that we didn't understand. It was more than explaining why the sun came up, it was the mystery of enormous birds with heads of men and rocks that came to life. So we called them 'gods' and 'demons', begged them to spare us, and prayed for salvation. In time, their numbers dwindled and ours rose. The world began to make more sense when there were fewer things to fear, yet the unexplained can never truly go away, as if the universe demands the absurd and impossible. Mankind must not go back to hiding in fear. No one else will protect us, and we must stand up for ourselves. While the rest of mankind dwells in the light, we must stand in the darkness to fight it, contain

it, and shield it from the eyes of the public, so that others may live in a sane and normal world. We secure. We contain. We protect. -- The Administrator The SCP Foundation - Foundation Handbook - Volume I is a perfect introduction to the world of SCPs. 63 stories, science fiction and horror, unveiling distinct Secure Containment Procedures designed to protect humanity from these anomalous entities. Whether it pertains a mysterious dark staircase which descends to physically impossible depths or a benign figure who offers a last cigarette to the ones who have been left alone on their deathbed, the foundation must document, study, secure, contain these strange phenomenons. But how can such a foundation operate with diligence and yet, integrity? What should be done with a little girl who brings to reality anything her impressionable mind believes to be true? The book is an adaptation and a collection of tales from the collaborative fiction website SCP Foundation, which can be reached at <http://www.scp-wiki.net/> . The product is also released under Creative Commons 3.0

**Social Animals** Neoxenok,2021-10-11 Becoming an employee for the SCP Foundation is no small thing. For Dr. Joseph Taylor, it was the moment his life changed forever. Aside from the secrecy and focus on security, it didn't seem that different from what he would have expected from a secretive organization. The first project he and a team of colleagues are given involves an anomalous wormhole: a gateway to a parallel Earth. It does not take long until it becomes apparent just how dangerous this other world is. It is so dangerous, in fact, that Dr. Taylor and his colleagues may be moved off the project entirely as they scrap their plans for the new facility Dr. Taylor was supposed to be a part of. However, when a Foundation prisoner escapes during the initial containment operations of the anomaly, Dr. Taylor sees an opportunity. Eager to prove his worth, impress his superiors, and advance his career, Dr. Taylor volunteers to find the prisoner and study this world in detail before the wormhole is permanently closed. Now, Dr. Taylor must find the escaped prisoner, study how this world came to be the way it is and the all-powerful architects of the new shape this world has taken, and return home without being found. If he fails, our world may suffer a fate worse than total extinction.
